Dr. Gupta. We have a problem we have a problem that is a solvable one in my view because it's the only thing that we can to but you have put yourself into the position I think I'm not negotiable I think because you have not any kind of rational conformational reasonable interfaced you are dumb dumb dumb to continue that. And whatever it takes and whatever it makes as destructive upon itself in a reckoning is your responsibility not mine to avoid or not for avoid you have lost your ability to maintain the informational quarantine on the subject.

I'm trying to get you to understand I think you're probably a better and good guy I can't speak for doctor she can do however.

Our interaction is temporary and you can think you can maintain that temporary that would be temporary with I'm sure most of your patients to come to your office. This is an abnormal situation. Abnormal to your understanding no of course not

I don't appreciate being railroaded when I had made my intentions known long before I walked into that office sir are you have not committed yourself to a resolve this you're thinking it's going to be okay and continue to go unsaid better not you were intentionally involved or just a witness of voyeurism that you don't want to get yourself into some sort of distribution or retaliation. You have to stand up sir I didn't accuse you of anything other than prevaricate eating this I don't know you well enough Gary but I know and it will be done this way because it's the only way that it can be done give me another alternative can you give me some legal capacity and I'll give you a difference of an apology only in the fact that I can't see what you see when I don't know what you know so therefore to my best ability of what I know I've done I have no other reaching out to do anymore my next reaching out is to kill myself sir

Justifiably kill myself because I can't have a doctor that will not break like you're trying to do when it comes to this matter to my future I'm caught in the Paradigm that you all are defending and allowing it can't be I'm an individually made human being that knows where my moral agency is Sir you can't take that away by throwing me in the office trying to cut my cast off as emergency if you want to and

from The UPS Store it don't work that way parent do you understand

I have updated your card record profile that's under my own creation of ability it has content that is relevant basically here just between you not just between me and not just between dr. Kelly but this entire community of establishment rebalance the whole thing needs to be rebalanced and then the whole thing used to be considered as a whole instead of pieces because in the shattering of this I'm have a life in pieces and I demand an approach that's more reasonably addressed. More reasonably considered more reasonably intelligent

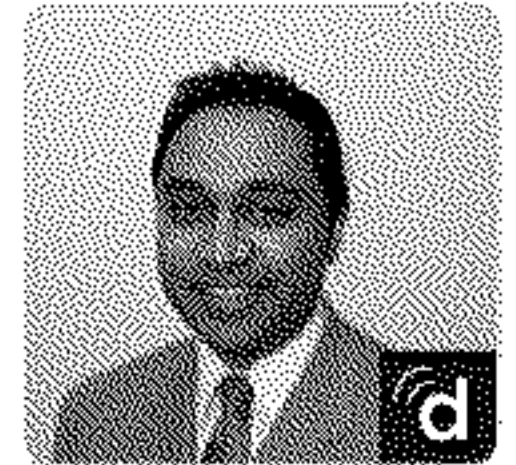

I am no fool but you are if you continue and not call me back I'm not calling your office on Monday and prompting this. I've already contacted the United States justice department for they have put themselves into this mix. I'm going to let them hold it y'all so I can basically kill myself and this is not an idle threat sir I've already stabbed myself in the neck there's no where I can go and all of you will not shift your nose of your it's not quite ready I will give you a chance sir everyone in this either way out as they pass by me I can't tell I don't read minds but they must be giving this illuminated View mentality to not treat me as an enemy die one way or another because you are trying to kill you are actually trying to kill me as a collective a monster of a wall that under a new sphere definition I'm trying to get into my writing I made a mistake of a few mistakes in my and if you refuse you're trying to protect yourself instead of protecting our nation sir it's treasonous writing

And I've lost my ability to focus on trying to make this perfect sir seriously I'm at 11 I can't focus because you all have restrict yourself to want to kill me because I cannot complete a simple request to have a doctor and I care that I can have an open and honest relationship with. Specifically are called f\*\*\* off and die is what I get from you all and that I can't have a conversation and can't engage in a Integrity wise trust mechanism in my own network in my own way you all are treating me like an enemy the most dangerous thing in the world societal societal pariah. No I represent the truth and integrity to try to Yo become an auditing of the truth yeah that's me I'm trying to represent the truth the whole truth and nothing but the truth on our land it's not me that's the threat sir it's the truth that it's the threat to you why did you put yourself in that position that's not my responsibility responsibility away from me that I have to do all this work and just concede that you are wrong and do it right immediately I don't deserve what has happened to me not at all not at all whoever told you such a thing is a liar
